Abstract

Provide a brief summary of your research (150-250 words). Include the purpose, methods, results, and conclusions of your study.

Introduction

Begin with an engaging introduction that establishes the context and significance of your research.

Clearly state your research question or thesis.

## **Literature Review**

Discuss relevant scholarly sources and research that relates to your topic.

Synthesize the literature to show how your work fits into the broader academic conversation.

## **Methodology**

Describe your research methods in detail so that others could replicate your study.

Explain your research design, participants, and procedures.

## **Results**

Present your findings clearly and objectively.

Use tables, figures, or other visual aids as appropriate.

## **Discussion**

Interpret your findings and discuss their implications.

Address limitations and suggest directions for future research.

## **References**

List all sources cited in your paper in APA format (alphabetical, hanging indent).
